

Spyro

Design: Wave Murano Glass

Description

Spyro is an elegant sculptural duo of Murano glass vases that embodies the seamless harmony between form, motion, and craftsmanship. Offered as a set of two, one short and one tall, each vase is meticulously handcrafted by master artisans using age-old Murano techniques.

Encased within the thick, crystal-clear glass are delicate, swirling filaments of color, expertly arranged to evoke a sense of movement suspended in time. Fine ribbons of vibrant colors, across a lattice of transparency, creating captivating optical depth and dynamic light refractions from every angle. More than decorative objects, they are quiet statements of elegance, craftsmanship and the refined beauty of Murano glass. Made in Italy.
