

Vanita

Design: Wave Murano Glass

Description

Vanità is a striking set crafted from refined Murano glass, comprising a sculptural vase and an elegant oval centerpiece. Each piece begins its journey in the kiln, where the molten glass is hot-worked into a perfectly rounded shape. It then undergoes a meticulous cold-working process, where skilled artisans use a diamond wheel to carve and refine the surface, revealing a sophisticated texture and a captivating play of light.

The result is a duo of modern and sleek forms that exude timeless elegance and artistic depth. Perfect for both everyday elegance and special occasions, this set embodies the essence of contemporary Murano art. Made in Italy.
