

## Vanity

*Design: Wave Murano Glass*

### Description

Vanity is a refined collection of Murano glass vases. Drawing inspiration from centuries of tradition, these exquisite pieces are defined by their luminous transparency and the mastery of the sommerso technique. In this sophisticated decorative process, the artisan begins with a core of blown or solid glass, then immerses it into successive crucibles containing different colored glass. Layer by layer, distinct tones are fused into one harmonious form, creating an enchanting depth of color and an extraordinary play of light.

Offered as a set of two complementary vases, Vanity is perfect for sophisticated interiors, these vases captivate as sculptural accents, expressing elegance, refinement and the enduring beauty of true craftsmanship. Made in Italy.
