

Venice Secret

Design: Wave Murano Glass

Description

Venice Secret is a sophisticated collection of Murano glass vases and centerpieces that showcases the elegance of modern craftsmanship and design. Each creation begins in the kiln, where the molten glass is masterfully molded into its preliminary form. It then undergoes meticulous cold working, where skilled artisans use a diamond wheel to carve the surface, revealing delicate textures, soft gradients and a captivating play of light and shadow.

The result is a collection of contemporary and sleek forms that embody serene elegance and artistic nuances. Presented as a four-piece set, including a round vase, an oval vase, an elongated vase and an elongated centerpiece, Venice Secret is designed to stand out, bringing timeless charm and sculptural allure to any space. Made in Italy.

Dimensions
