

Vernici

Design: Wave Murano Glass

Description

Vernici is a stylish collection of handcrafted Murano glass vases where contrast takes center stage. Defined by the traditional “incamiciato” technique, each vase is created by layering two distinct outer colors with a delicate veil of white glass sandwiched in between, an artisanal process that gives the surface its rich, opaque character and luminous depth.

Elegant and contemporary, the Vernici collection captivates with its modern simplicity and visual impact. Offered as a two-piece set, featuring one tall and one small vase, each piece stands as a testament to the mastery of Murano glassmaking, bringing a touch of artistic sophistication to any interior. Made in Italy.
