

## Vivarissimi

*Design: Wave Murano Glass*

### Description

Vivarissimi is a captivating collection of handcrafted Murano glass vases. Each piece is brought to life by masterful sandblasting and delicate color grading, creating soft tonal transitions that evoke movement and light. These subtle discolorations are not defects, but characteristics: artistic nuances that give the vases their unique vibrancy and character, naturally illuminating any space.

Inspired by the natural rhythms of the year, the available versions feature a name and color that represent one of the four seasons. The set includes four complementary vases: two round, one with a matte finish and one with an intricately carved surface, and two elongated, also in matching matte and carved variants. Together, they form a harmonious ensemble that celebrates the elegance of Murano glass craftsmanship, transforming everyday interiors into exquisite works of art. Made in Italy.

### Dimensions

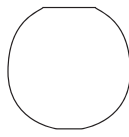

**Round Vase:** Ø5"1/2

**Long Vase:** 5"1/2W x 8"5/8H
