

# Nido Keramik

*Design: Paolo Cattelan*

## *Description*

The Nido Keramik Bistrot tables, designed by Brogliato Traverso studio, are the ideal combination of naturalistic inspiration and excellent production techniques. The pattern created by the laquered steel base has a light and harmonious design, which enhances the numerous refined nuances of the Marmi ceramic top of this exquisite bar table. Conceived at first as coffee shop tables for contract interior design projects, they are available in two heights. According to different styling needs, they can be combined with chairs or they can furnish an elegant bistrot with a high table with stools. Made in Italy.

### **Technical Information:**

Table with graphite or black embossed steel base. Marmi Alabastro, Supreme, matt Golden Calacatta, glossy Golden Calacatta, Makalu, Breccia, Colosseo, Andromeda, matt Invisible or Luxor ceramic top. Made in Italy.
