

Planer Keramik Premium

Design: Paolo Cattelan

Description

Planer is a modern design table that redefines horizontal and vertical elements, adding dynamic volumes to the dining room. It comes in various finishes with steel bases and tops in glass, Crystalart, ceramic (Keramik, Keramik Premium), or wood (Planer Wood, Planer Masterwood). The collection also includes four round versions with glass, ceramic, or wood-ceramic combinations.

Technical Information:

The luxurious Planer Keramik Premium table features a refined base in titanium, bronze, graphite, or black embossed lacquered steel, as well as Brushed Bronze or Brushed Grey finishes for a sophisticated touch. Its elegant Marmi ceramic top is enhanced with a Brushed Bronze or Brushed Grey lacquered and rounded lower profile, offering a seamless blend of modern design and artisanal craftsmanship. The tabletop is 2 3/8" thick on the 118" x 50" version and 2" thick on the 78" x 47" and 94" x 47" versions. Variations in color and texture of the Brushed finish are a result of handcrafted processing and should be appreciated as unique characteristics rather than imperfections. A statement piece for contemporary luxury interiors. Made in Italy.
