

Linea

Design: Michele Losito

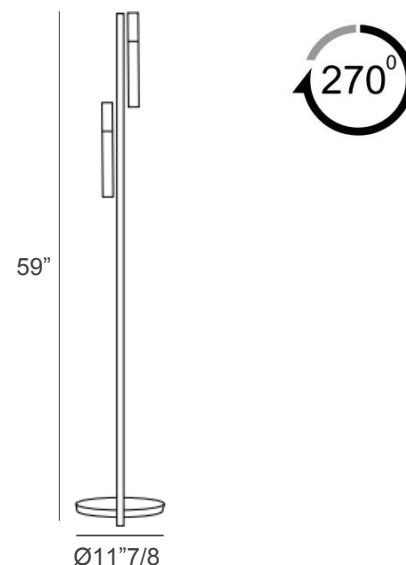

Description

A continuous line rises from the ground and unfolds in ambivalent directions, a luminous point with no limit and no boundary to its composition. Anchored to the floor yet flowing with effortless precision, it feels like a gesture drawn in space. The brilliance of the glass defines its form, and where it ends, the horizon begins. Each spotlight is adjustable up to 270°, offering freedom to shape light with precision. Made in Italy.

Light source: 2 LED star 9W - 4000°K - 12 Vdc - SMD z5m2 - 880 lm - lifetime 30.000 h - Dimmable - Energy Efficiency: E

Dimensions

Ø11"7/8 x 59"H

Finishes & Materials

Structure: Iron.

Bushings: Aluminum.

Tube: Borosilicate glass.
