

Moonlight

Description

Moonlight Table is a luminous sculpture designed to bring intimacy and elegance to surfaces. Its sphere recalls the quiet glow of moonlight resting on a horizon, radiating a warm, comforting aura. Ideal for bedside tables, desks, or living areas, it blends functionality with poetic design, making light itself a tactile experience.

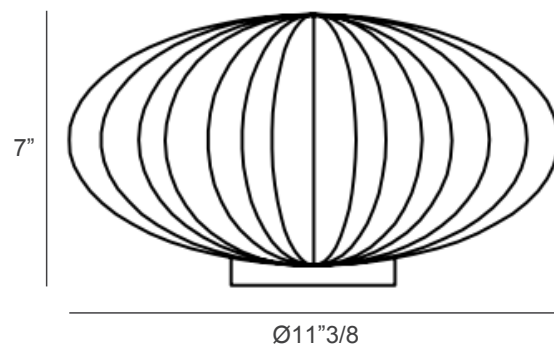

The novelty is the vintage finish, a material consisting of a mix of color and powder, perceptible to the touch and visually. Powder deposition creates unique, different products.

Made in Italy.
