

Nido

Design: Simone Di Liddo

Description

Nido is a table lamp born from the encounter of two shapes—a circle and a line—that intersect with each other in a formal balance without rules. The design seeks to evoke the sense of comfort and protection of one's own nest: a space of freedom, intimacy, and creation.

Inside this exclusive lamp there is a strip LED dynamic white to instantly choose the temperature of the light: from warm to cold. Made in Italy.
