

Neva

Design: Daniel Becker

Description

A group of long icicles suspended from the roof of a house crossed by low sunlight that shatters the ice, creating a crystal-clear pattern of light. This fleeting moment is frozen in time and transferred into the space of a home. A thin metal frame creates a reference to nature without distracting too much from the lighting effect created by the glass. Neva has borosilicate bulb holder tubes, borosilicate tubes with stars section and full Murano glass tubes. Made in Italy.
