

1953

Design: Ostuni & Forti

Description

A tribute to the masters of lighting, visionary names who have shaped the history of design and of Oluce itself: the company presents the exclusive reissue of a refined product from the 1950s by Giuseppe Ostuni and Forti. The 1953 lamp, designed by Ostuni and Forti, is offered in two elegant models — floor and table — that vary in proportion and size but remain identical in their sophisticated design, characterized by the displacement of the lampshade from the center to the side. This high-end detail recalls the timeless style of those years, with a classic cylindrical shade. Decorative yet essential, the 1953 collection embodies a refined modernity, attesting to Oluce's instinct for creating designer pieces capable of transcending fashions and eras, and reaffirming its place as a house of luxury lighting and Italian elegance. Made in Italy.

Dimensions

Ø27"1/2 x 18"7/8H - Cod. 243
