

Alba

Design: Mariana Pellegrino Soto

Description

The Alba lighting collection originates from a poetic concept: a single drop of water transformed into light. This elemental inspiration evolves into a versatile family of designer lighting fixtures that balance nature's soft, organic shapes with the clean geometry of contemporary design. The finishes enhance its refined elegance, giving Alba a luxurious lighting presence with strong visual impact.

Two floor-standing versions are available: in both versions, a large rectangular-section stem arises from an anthracite base. In the first version, an arm branches off from the top, with a sphere suspended underneath it, while in the second, two arms of different heights, on each side, support the luminous drops, one from above and the other from below. These striking variations confirm Alba's role as a symbol of luxury lighting fixtures that combine nature, geometry, and timeless elegance. Made in Italy.
