

## Alba

*Design: Mariana Pellegrino Soto*

### *Description*

The concept of Alba originates from a simple yet poetic inspiration: a drop of water, reimagined by the designer and translated into different forms across the refined collection. Soft, organic shapes inspired by nature are contrasted with clean geometric lines, while the sophisticated finishes enhance its luxury character and create a family of lamps with a striking visual impact.

In the table lamp version, the luminous drop rests delicately on a rectangular profile shaped as a double asymmetrical "L", at once base and ornament. The result is a piece of modern elegance and refined exclusivity, where natural inspiration meets high-end design to create an object of timeless allure.

Made in Italy.

### *Dimensions*

12"5/8W x 9"7/8H - Cod. 265

**Light source:** 1x max 25W E26 (LED) - With bulb - Universal dimmer

### *Finishes & Materials*

**Diffuser:** Polished Opaline blown-glass.

**Base:** Anodize Satin Brass with rectangular profile.
