

Berlin

Design: Christophe Pillet

Description

Berlin, honored with the Archiproducts Design Award in 2017, redefines the concept of the ceiling light by overturning its traditionally discreet character and transforming it into an elegant and decorative feature. Berlin can be used both as a ceiling and as a wall lamp, distinguished by a thick yet slender metal ring that encloses a disc of finely wired glass. Its finish evokes the timeless elegance of Art Deco, reinterpreted in a contemporary language through essential lines and the integration of modern LED technology. More than just a source of light, Berlin embodies sophisticated design and functional beauty, offering a harmonious balance between decorative presence and cutting-edge performance. A luxury lighting fixture that elevates interiors, Berlin seamlessly unites past inspiration with modern innovation. Made in Italy.

Dimensions

A) Ø11"7/8 x 4"D - Cod. 720

2 x max 10W E12 (LED) - Without bulb

B) Ø15"3/4 x 4"3/8D - Cod. 721

2 x max 15W E26 (LED) - Without bulb

B) Ø19"5/8 x 4"3/8D - Cod. 722

4 x max 15W E26 (LED) - Without bulb

Finishes & Materials

Structure: Metal.

Diffuser: Sand-blasted wired glass.
