

Calamaio

Design: Cervellieri, Di Lorenzo, Montini

Description

Calamaio is a refined designer lamp that brings light exactly where it is needed through a rotating head mounted on a mobile structure. Made entirely of metal, it features two slender cylindrical stems connected by a pivot, allowing the head to be adjustable with precision. The integrated LED source, placed at the end of the lamp, creates a clean and directed light beam, ideal for both functional and decorative use. Its body is anchored to a spherical element resting on a circular base, enabling wide rotation and offering exceptional flexibility. Defined by pure, essential lines and a contemporary elegance, Calamaio is enriched by the user's interaction, transforming movement into design.

Light, dynamic and sophisticated, its personality is enhanced by luxury finishes and bold glossy lacquers. A modern high-end piece, Calamaio expresses both refinement and exclusivity, embodying the timeless beauty of Italian design. Made in Italy.

Dimensions

14"W x 14"5/8H - Cod. 298

Light source: 1 x 2W (LED) 2700°K 285 lm CRI>85

- With bulb - On/off switch

Finishes & Materials

Structure: Metal.
