

Cylinda

Design: Angeletti & Ruzza

Description

Designed by Angeletti & Ruzza, Cylinda is a sophisticated designer table lamp composed of two cylinders of different dimensions and thicknesses. The taller, slimmer element forms the base, supporting a large, slender disc that serves as the light-shade, beneath which an integrated LED source emits a refined, directed glow. Guided by the mantra “to eliminate, not to add anything that is not absolutely necessary”, the designers sought an essential purity of form, resulting in a lamp whose quiet presence has the power to transform daily routine into everyday poetics. With its minimalist sophistication, Cylinda embodies the Oluce DNA, capturing attention through its strong, sculptural silhouette and timeless elegance. The mono-tone version accentuates the lamp’s essential character, highlighting the beauty of its clean lines, while the two-tone model introduces a touch of exclusive luxury, discreetly enhancing the object with refined decorative charm.

In recognition of its modern elegance and refined design, Cylinda was awarded the prestigious Archiproducts Design Award in 2018, affirming its place as a high-end icon of contemporary Italian creativity. Made in Italy.

Dimensions

Ø11”3/8 x 11”7/8H - Cod. 218

Light source: 1 x max 12,5W (LED) 3000°K - 1770 lm
CRI>85 - With bulb

Finishes & Materials

Structure: Metal.
