

Dora

Design: Angeletti & Ruzza

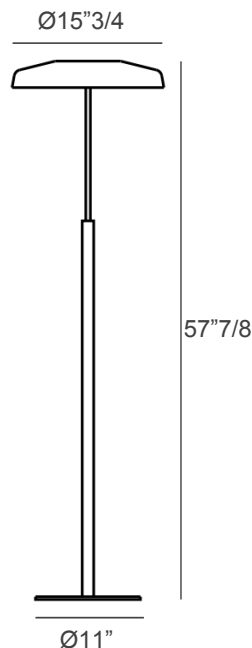

Description

With a balanced and refined presence, Dora embodies innate elegance – aristocratic yet without pretension. This collection of indoor lamps is built around a delicate contrast: the warmth of its glass diffuser and the measured balance of the supporting metal structure. Light in presence yet rich in character, Dora reveals an antique soul with strong references to classical lines, particularly in the lampshade's silhouette, which are reinterpreted through the minimalism of the slender stem and base. Its subtle essentiality is what makes it unique and unmistakable. Dora is available in both table and floor versions, each composed of a glass dome lampshade supported by a sleek metal stem and crowned with an upper metal disc. Made in Italy.

Dimensions

Ø15"3/4 x 57"7/8H - Cod. 371
