

Dora

Design: Angeletti & Ruzza

Description

With a balanced and refined presence, innate elegance, and an aristocratic spirit without pretension, Dora is a collection of lamps that embodies the luxury of timeless design. The range plays on the contrast between the warmth of the glass diffuser and the poised structure of the metal body that supports it. Light and ethereal yet rooted in history, Dora evokes an antique soul, with clear references to classical lines — particularly in the lampshade design — softened and modernized by the minimalist stem and base. Its subtle essentiality becomes its true signature, expressing a quiet yet exclusive sophistication. Dora is composed of a delicate glass cap lampshade sustained by a slender metal stem, crowned with an elegant metal disc.

A piece of high-end Italian design, Dora is both decorative and essential, a lamp that balances classical inspiration with modern refinement to create an object of enduring exclusivity. Made in Italy.

Dimensions

Ø15"3/4 x 15"3/4H - Cod. 271

Light source: 1 x 9W - LED 2700°K - 1300 lm CRI>85 - With bulb

Finishes & Materials

Structure: Satin galvanic metal.

Diffuser: Blown-glass.
