

Lyndon

Design: Vico Magistretti

Description

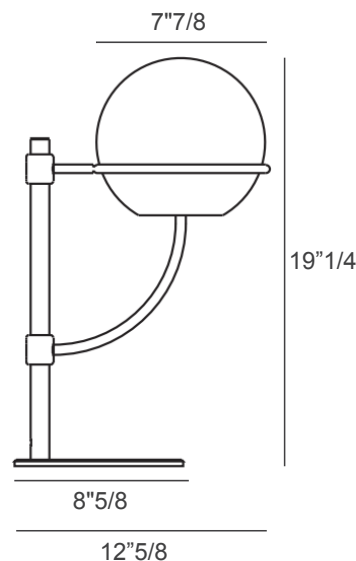

Designed by Vico Magistretti in 1977, the Lyndon lamp has been revisited in three refined models — floor, table, and wall — conceived for elegant outdoor environments. The timeless design of the candelabra structure remains unchanged: a sleek metal stem frames four transparent polycarbonate spheres, which merge into a single luminous globe in the table and wall versions.

An expression of Magistretti's essential and modern design language, Lyndon is presented as a high-end piece in three exclusive versions: the original floor-standing and wall models, together with a newly introduced luxury table version. Made in Italy.

Dimensions

12"5/8W x 8"5/8D x 19"1/4H - Cod. 283

Light source: 1 x max 10 W (E12) - On/Off switch
- Without bulb
