

## Medusa

*Design: Quaglio & Simonelli*

### *Description*

Medusa is a refined glass table lamp that reinterprets the relationship between structure and shade with striking originality. Created from the simple yet ingenious principle of inserting a metal dome within a glass cylinder, the lamp combines minimalist geometry with an exclusive sense of elegance.

In Medusa, the supporting element does not uphold the shade—it contains it. The dome, which houses the light source, is gracefully suspended inside the cylinder by an exquisite fold of glass, achieving formal purity and refined balance. The electric cable, descending freely from the centre of the diffuser, interacts with the reflections, creating a subtle sense of movement and lightness.

With its clean lines and luxury finishes, Medusa offers both a decorative and functional presence, diffusing a warm and soft glow that elevates any interior with designer sophistication. Made in Italy.

### *Dimensions*

Ø5"7/8 x 11"7/8H - Cod. 254

**Light source:** 1 x 4W (LED) 2700°K - 500 lm CRI>85 - With bulb

### *Finishes & Materials*

**Structure:** Pyrex glass.

**Inner Reflector:** Metal.
