

Parallel

Design: Victor Vasilev

Description

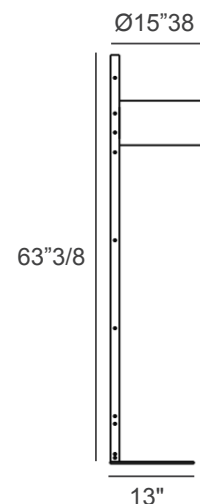

Parallel is a collection of designer lighting fixtures — available as both table and floor lamps — born from the desire to create a product that appeals to a wide variety of tastes and settings, from the most classic interiors to contemporary and minimalist spaces. Its design features a cylindrical lampshade supported by a lateral vertical stem, composed of two matt-black metallic plates that run in parallel from the base to the shade. This distinctive construction gives the lamp its name and emphasizes its clean, architectural geometry. What makes Parallel truly unique is its innovative use of leather: the lampshade is finished with hammered leather in two refined shades, leather brown and sand. This marks the first time that Oluce has introduced leather into its collections, highlighting the brand's commitment to exploring new materials and pushing the boundaries of Italian lighting design.

With its meticulous attention to detail, refined textures, and striking geometry, Parallel is a modern yet timeless lamp, versatile enough to complement diverse interiors while offering both strong visual impact and a rich tactile experience. Made in Italy.

Dimensions

Ø15"38 x 63"3/8H - Cod. 396

Light source: 2 x max 50W E26 (LED) - With bulb - Universal dimmer

Finishes & Materials

Base, Stem & Closing Disk: Lacquered matt black.

Reflector: Leather covered.
