

## Pascal

*Design: Vico Magistretti*

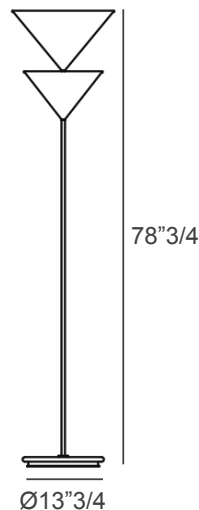

### *Description*

Alongside Sonora and Atollo, Pascal perfectly embodies Vico Magistretti's design aesthetics: extremely pure geometric shapes combined to create functional and symbolic compositions. In Pascal, the cone is enhanced by its repetition. At the end of the stem, supported by its metallic base, two overturned cones are positioned as if they were balancing one on top of the other, inside which the light sources are housed. However, the use of geometry is not merely aesthetic; it serves a practical function. The upper cone hosts a LED circuit and acts as a "luminator", while the lower one contains two E27 bulbs, transforming the inclined walls above into perfect reflectors that direct ambient light downwards. Its dual-circuit switches highlight the lamp's twofold use, making its functions entirely autonomous. Pascal is a timeless masterpiece of luxury designer lighting, merging sculptural simplicity with functional beauty. This iconic floor lamp seamlessly blends into both classic and contemporary interiors, representing the harmony of Magistretti's vision and Oluce's tradition of creating high-end light fixtures that transcend eras. Made in Italy.

### *Dimensions*

Ø13"3/4 x 78"3/4H - Cod. 345/L

**Light source:** 2 x max 100W (E26) + 1 x max 24W (LED) 2700°K  
- 3300 lm CRI>85

### *Finishes & Materials*

**Structure:** Lacquered aluminum.

**Base:** Lacquered metal.
