

Siro

Design: Marta Perla

Description

Siro is an elegant designer table lamp defined by a semi-spherical body with a delicate disc at the front. Within, a slim LED light source releases an oblique, atmospheric glow, creating a play of light and shadow that feels both refined and contemporary. Viewed from the front, Siro appears to be made of just two two-dimensional elements, giving the illusion of perfect balance on its surface—a subtle gesture of luxury lighting design.

Its name derives from Sirius, the brightest white star in the night sky, evoking humanity's timeless search for cosmic connections and celestial harmony. With this inspiration, Siro transforms into more than a lamp: it becomes a luxury light fixture with poetic presence, bridging designer lighting and the fascination of astronomical phenomena.

Available in two sizes and two exquisite finishes, Siro highlights color contrast in a pure, graphic way. A striking addition to luxury home lighting, this lamp embodies the very essence of luxury designer lighting: exclusive, refined, and timeless, perfect for enhancing both private interiors and sophisticated contract spaces.

Made in Italy.
