

## Sonora

*Design: Vico Magistretti*

### Description

The story of Sonora is a tale of pure geometric perfection, a theme that Vico Magistretti pursued throughout his career. For the architect and designer, geometry was not only a source of inspiration but also a method of simplification, shaping his creative path with clarity and precision.

Designed in 1976, Sonora is available in various materials and sizes, making it a versatile and enduring piece. Over more than 40 years, it has become one of the most iconic designer lighting fixtures, admired both by the public and by Magistretti himself.

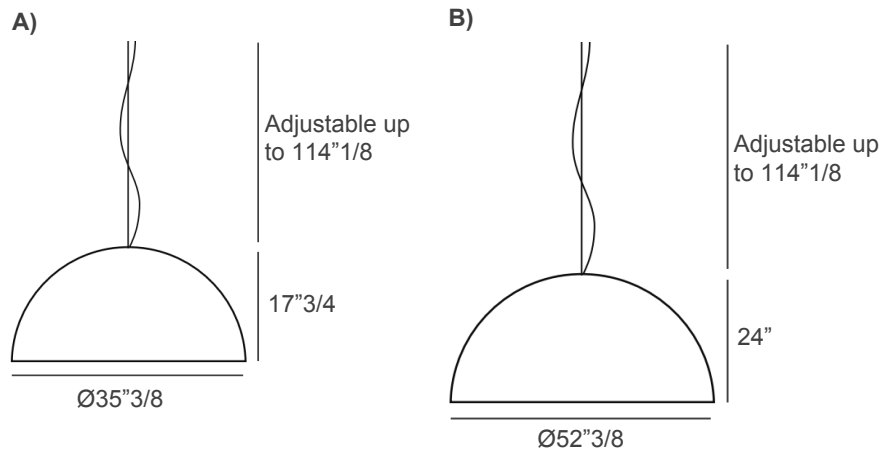

Its essential dome shape embodies luxury lighting design at its finest, a harmonious balance of form and function that translates into a timeless, elegant statement piece. Sonora continues to represent the essence of contemporary lighting while carrying the legacy of a master's vision. Made in Italy.
