

# Superluna

*Design: Victor Vasilev*

## *Description*

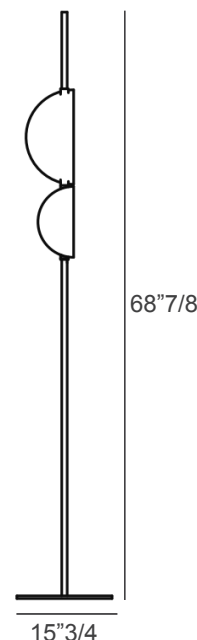

The design is defined by a slender metal rod that discreetly conceals the electrical components, while hosting the light source. The LED emerges seamlessly from the stem in line with a semi-spherical shade, which reflects and diffuses light by rotating on its own axis. This movement evokes the perpetual rhythm of celestial bodies, amplifying the sense of a luminous core radiating within the lamp's structure.

Superluna embodies the perfect union of luxury lighting design and functional beauty, combining an elegant silhouette with contemporary innovation. With its sculptural presence, it is more than just a lamp: it is a statement piece of luxury lighting fixtures that brings a poetic atmosphere to modern interiors. Made in Italy.

## *Dimensions*

Ø11" x 68"7/8H - Cod. 397

1 x max 5,5W + 1 x max 6,5W (LED) - 3000°K 1150 lm CRI>85  
- With bulb

## *Finishes & Materials*

**Structure:** Metal with rotating hemisphere.
