

The Globe

Design: Joe Colombo

Description

The Globe, designed by Joe Colombo in 1964, is an iconic designer lighting fixture available in table, suspension, and wall versions. Defined by its pure geometric lines, the lamp achieves a perfect balance between form and functional beauty, embodying Colombo's modernist vision. At its core, a transparent blown-glass sphere encapsulates a cylindrical metal reflector, which projects a timeless and elegant light into the surrounding space. The Globe remains a luxury lighting design masterpiece, seamlessly bridging contemporary lighting fixtures with the enduring charm of mid-century aesthetics. Made in Italy.
