

The Globe

Design: Joe Colombo

Description

Designed by Joe Colombo in 1964, The Globe is an iconic collection of luxury designer lights, available in table, suspension, and wall versions. Its design embodies the perfect harmony between pure geometry and refined functionality: a transparent blown-glass sphere delicately encloses a cylindrical metal reflector, projecting a timeless and atmospheric glow into space.

The Globe is a masterpiece of contemporary lighting fixtures that balances sculptural elegance with technical precision. A true symbol of luxury home lighting, it reflects Colombo's visionary ability to transform essential forms into exclusive, high-end light fixtures that remain as modern and captivating today as when first conceived. Made in Italy.

Dimensions
