

H2O

Design: Studio F+B Design

Description

The H2O coffee table embodies the perfect fusion of artistry and industrial design, where craftsmanship and innovation coexist in harmonious balance. Entirely made from a single volume of hand-blown glass, each piece is one of a kind, distinguished by subtle variations that celebrate the beauty of artisanal imperfection. Born from a green DNA, H2O comes to life through the transformative power of fire, giving form to a creation that is as vibrant as it is ethereal. Its luminous transparency and mesmerizing colors evoke a hymn to vitality, making it a true centerpiece of contemporary design — both sculptural and functional, delicate yet powerful. Made in Italy.

Dimensions

A) Ø14"5/8 x 20"1/2H - Cod. 08.46

B) Ø19"5/8 x 14"5/8H - Cod. 08.47

C) Ø22"7/8 x 12"5/8H - Cod. 08.48
