

LUXOR

Design: Stefano Grassi

Description

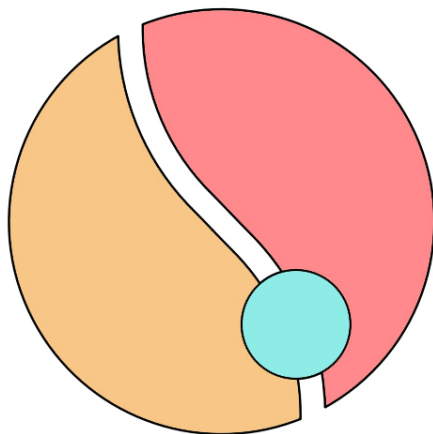

Amidst soft reflections of faces, objects, and light, this luxury mirror celebrates beauty through harmony and refined design. Its composition — featuring two distinct sections and one decorative detail — is defined by the overlapping and coupling of geometric forms, similar in shape yet different in proportion and finish. Each element can be customized in a variety of elegant finishes, transforming the mirror into a unique and sculptural statement piece that enhances the sophistication of any interior. More than a functional object, it embodies the essence of luxury Italian home decor, merging craftsmanship and creativity into a designer decorative accessory that gracefully elevates modern and classic spaces alike.

Made in Italy.
