

Secret

Design: Luca Roccadadria

Description

Secret is a refined piece that gracefully combines two souls — a vanity and a desk — merging beauty and practicality into one. Its sophisticated and exclusive design evokes a sense of timeless elegance, encouraging slow, thoughtful moments in the modern home. The clean geometry of the structure contrasts with the warmth of the wooden top, enhanced by the outer edge, which can be made of metal or crafted in a delicate leather covering available with matching or contrasting stitching. At its heart lies a precious storage compartment, crafted in wood or SuperMarble, featuring an elegant organizer for personal objects. Perfect for both private spaces and refined hospitality interiors, Secret reflects the balance between functionality and style that defines Italian luxury furniture. Made in Italy.
