

Sferatus

Description

The partially mirrored borosilicate glass spheres create a mesmerizing play of light and shadow, amplifying brightness with a captivating reflective effect. Their poetic delicacy transforms illumination into emotion, radiating a soft yet distinctive glow that enriches any environment.

Designed with precision and artistry, this piece exemplifies luxury designer lighting, blending contemporary lighting design with timeless elegance.

Its sculptural presence and luminous harmony make it a refined addition to sophisticated interiors seeking high end light fixtures that elevate atmosphere and style. Made in Italy.

Finishes & Materials
