

Cosmic

Description

The Cosmic project by Mascheroni, inspired by private space shuttle seating, brings luxury and comfort to home cinema with an innovative approach to interior design. Each seat offers adjustable reclining positions via integrated armrest controls, ensuring maximum comfort through ergonomic design, Mascheroni's premium leathers, and durable, non-deformable padding. Featuring a steel frame, curved birch structure, and leather-covered base, every handmade piece is marked with an engraved "Mascheroni srl Made in Italy" plate to certify its authenticity.

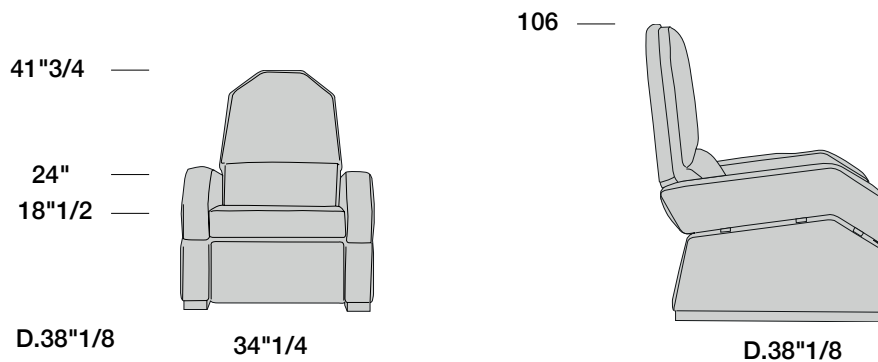

Cosmic
