

Ginkgo

Design: Niccolò Devetag

Description

The Ginkgo lounge chair, available in both standard and XL versions, embodies the essence of contemporary comfort and refined Italian craftsmanship. The standard model, winner of the Porada International Design Award 2022, established the design's signature balance between sculptural elegance and ergonomic function. Building on this success, the new Ginkgo XL introduces more generous proportions and an embracing silhouette, ideal for those seeking a cozier, more relaxed seating experience without compromising on refinement or style.

Its solid Canaletta walnut frame supports an outer shell upholstered in leather, complemented by a removable seat and back cushion available in all the fabrics of the collection. The piping detail, customizable in contrasting Zenith colors, enhances its refined craftsmanship, while the wooden frog accent on the back completes the piece with a signature Porada touch.

Engineered for superior ergonomics, the seat is padded in multiple densities for optimal comfort, and the backrest is shaped in polyurethane foam to provide ideal support. Ginkgo lounge chair is a statement piece of modern luxury furniture, embodying the perfect balance between sculptural design, artisanal mastery, and contemporary sophistication — ideal for elegant living spaces or exclusive lounge areas. Made in Italy.
