

Domino

Design: Verner Panton

Description

Starting from a project developed in 1974, the Domino collection presents twelve square modules of identical size (23"5/8 x 23"5/8) defined by as many geometric patterns, in the eight colors of Panton's color series. Circles, squares, curves, waves, stripes, quarters of a circle, and quarters of a square, made of precious wool and hand tufted, are suitable for being freely composed to give life to the most varied patterns. The modules are perfectly suited to decorate not only floors, but also walls, and they can furthermore be used to optimize the acoustic qualities of a space. Made in Italy.

TECHNICAL INFORMATION

Pile composition: 100% New Zealand wool

Height: 7/8" (23 mm)

Technique: Hand Tufting

Origin: India

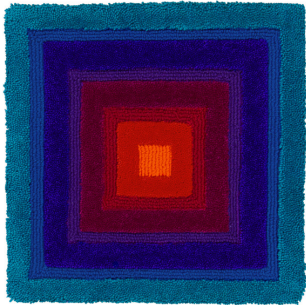

Finishing: The rugs are hand washed, clipped and carved.

Color: Positive, Negative.
