

JC-1 Bubbles

Design: Joe Colombo

Description

A fun and playful motif of polka dots in the Bubbles rug, design by modern and ingenious designer Joe Colombo. Bubbles was born from his 1968 graphic design project that Joe Colombo undertook in various areas such as lighting, for example with the Bolle table lamp already in 1964. The pattern is created by circles made of three or four different diameters that create dynamic rhythms and patterns. Made in Italy.
