Design: Juma

Description

Black and white organic shapes impressed in a delicate, irrational order. Jean rugs, designed by the studio Juma, are inspired by the earth and its natural elements. Raw jute and soft wool meet symbiotically in a bidimensional sculpture weaved using the ancient Soumak tapestry technique, here reinterpreted in a modern key. "The forms that then take shape offer access to mysteries and reveal to us the profound sources of life", Jean Arp. Made in Italy.
