

## Nomadic

*Design: Amini Studio*

### *Description*

The hand twined wool threads lend depth to the furnishings and make the Nomadic rug an ideal feature for modern dwellings with natural tones. Made with selected, hand-knotted angora wool that ensures a finished product whose quality and comfort are little short of absolute, the Nomadic rugs span the different hues of ivory, beige and brown mix, criss-crossed by darker lines recalling the artwork of the nomadic culture that inspired them. Interestingly, the more unusual feature lies in the actual color scheme: these are contemporary hues that can give rise to unique items thanks to the Amini bespoke customization program. Made in Italy.
