

Pangea Venus

Design: Amini Studio

Description

Pangea delves into the roots of History, however, in its being “primitive” it raises cultural references that already belong to us. Made of precious bamboo silk and hand carded Tibetan wool this luxury Italian rug boasts the refined and today even more precious advantage of being “real”. Thus, spots that appear to have been left by fingerprints then make up hardly Euclidean geometrical shapes that are repeated, appear and fade, and rise up in more or less visible patterns. Made in Italy.

TECHNICAL INFORMATION

Quality: 100.000 knots/sqm
