

RD Braque

Design: Rodolfo Dordoni

Description

The refraction effect given by the wavy glass is the leitmotif of the RD Braque series, a collection of rugs with strong references to the world of architectural design. A careful study of the colors and their infinite declinations gives a pictorial effect to the surface of the rugs, hand-knotted in precious New Zealand wool. Made in Italy.

TECHNICAL INFORMATION

Quality: 72.000 nodi/mq
