

RD Halong

Design: Rodolfo Dordoni

Description

The research started some time ago by Amini in the theme of the reinterpretation of the Berber rug in a contemporary key is enriched by a new product. The RD Halong rug presents as a combination of graphic elements and surface textures translated into a calibrated design, made of juxtapositions of full and empty spaces. The play of contrasts between depth and background of the high pile alternates with the design of the contrasting lines. The total chromatic effect, from the soft tones of the natural wool, are emphasized by the brilliant embroidery in colors of Oriental spices. Made in Italy.

TECHNICAL INFORMATION

Pile composition: 100% semi-worsted wool

Height: 1/8"-1" (4-25 mm)

Technique: Hand Weaving

Origin: India

Finishing: The rugs are hand washed, clipped and carved.

Color: Yellow.
