

## RD Twist

*Design: Rodolfo Dordoni*

### *Description*

Curves and movement: Twist is the result of a journey parallel to the rigorous geometric research that Rodolfo Dordoni has deepened with Amini over time. The sinuous patterns of the rugs are enriched by the interplay of chromatic planes, which infuse depth into the design. The foreground fillings stand out thanks to the sheen of silk and the higher pile, which lends them a delicate softness compared to the background. Made in Italy.
