

Trasparenze

Design: Carlotta Fortuna

Description

The Trasparenze collection thoroughly researches the creative notion of stratification of colors, geometrical elements and contours that morph into complex, abstract shapes whose intensely decorative value brings stylistic rigor and linearity to all kinds of interiors. Color combinations that define new geometrical patterns, revealing almost three-dimensional shapes. Backgrounds that feature an array of stratifications, overlaps, transparencies, and nuances come to life with novel color combinations that turn pure forms into complex patterns. Made of hand-tufted wool, Trasparenze rugs are intended for both private interiors and a contract world that is increasingly more demanding in terms of design and quality. Made in Italy.
