

Vincent

Design: Amini Studio

Description

A collection of one-of-a-kind rugs that bring to the interiors the kind of emotions one normally gets when admiring paintings, whose highest form of expression is the sentiment of true closeness to nature. Entirely made in hand-knotted silk, Vincent I and Vincent II rugs are a tribute to the far east and to the less-known Japanese-inspired artistic period of Vincent Van Gogh, where the harmony of decorations combined with the shades of blue give a sensation of suspension over time. Made in Italy.
