

Stones

Design: Marta Laudani & Marco Romanelli

Description

Stones are the natural evolution of the iconic Stone of Glass collection. Inspired by organic forms found in nature, these luminous sculptures are available in two different sizes.

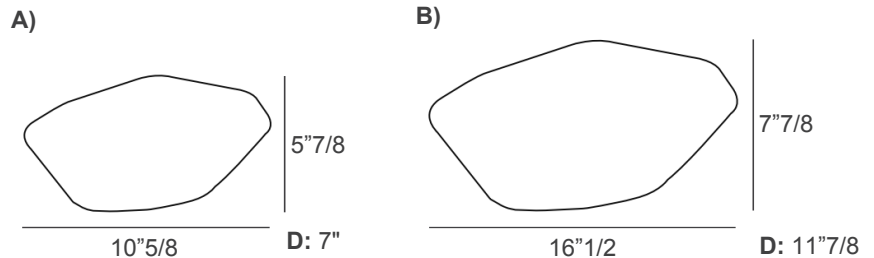

Placed individually or in groups, they blend seamlessly into a garden or terrace, creating an enchanting interplay of diffuse, captivating light. Their soft glow transforms outdoor spaces into refined, atmospheric environments, balancing natural inspiration with contemporary design.

Size A is sold in a set of two lamps, while size B has no minimum order requirement. Made in Italy.
