

La Lollo

Design: Lorenza Bozzoli

Description

La Lollo collection pays homage to the wonderful 1950s. The ribbed effect of the glass is created with Slamp technopolymers (Lentiflex®, Lentiflex® with cold foil and Opalflex®), cold-worked and hand-molded to create an imposing and elegant lamp that is characterized by versatility and brilliance.

The Steelflex® rings, with vertical decorative engravings, lend dynamism and grace to the lamp, which is equipped with three light sources, whose color temperature can be chosen according to the user's taste and whose intensity can be controlled by a foot dimmer connected to the polished steel base. Made in Italy.

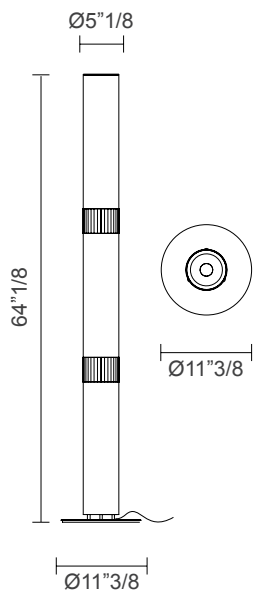

Light source:

3 x 12W E26 LED Filament Bulbs.
Dimmable with dimmable bulbs.
Steel Base - Dimmer.
