

# La Lollona

*Design: Lorenza Bozzoli*

## Description

La Lollona is a luminous tribute to the vibrant spirit of the 1950s and its unmistakable retro charm. Its design is composed of a series of unbreakable, ultra-light technopolymer cylinders, elegantly arranged around a central ring with integrated LED lighting, creating a striking play of light and reflections.

Offered in two versions, with four or five modules, the collection is crafted from Lentiflex® or Lentiflex® with cold foil Opalflex®, available in a palette of vibrant and refined colors. The result is a sophisticated lighting piece that captures vintage glamour while embracing contemporary innovation. Made in Italy.
