

La Traviata

Design: Robert Wilson

Description

La Traviata is a true work of art, a poetic fusion of architecture, light and movement. Its sculptural presence evokes the grace of a performance, where lighting becomes choreography and space becomes the stage.

Crafted from Lentiflex® and methacrylate, its luminous surfaces diffuse light with fluid precision, creating reflections that change and dance with every glance. The lamp's colors and intensity can be adjusted via DMX or CASAMBI remote control, allowing for a personalized lighting experience to suit any mood and setting. Made in Italy.
