

Koko

Design: Tollgard & Castellani

Description

Koko is a lounge chair that stands out for its perfect balance of rigidity and ergonomics, strength and lightness, design and functionality. The structure supporting the seat is crafted from solid Canaletta walnut, providing both a sturdy foundation and an elegant frame that embraces the seat, creating an enveloping and comfortable experience ideal for moments of relaxation. An anatomical shell, moulded with a layer of polyurethane fixed to the wooden structure, defines the seat and backrest as a single, continuous element. The shell can be customized in all fabrics and leathers from the Porada collection, allowing for a truly tailored aesthetic.

Comfort is further enhanced by a height-adjustable padded headrest, tone-on-tone with the shell and enriched with chrome metal details, a finish echoed in the chair's refined feet. The Koko ottoman is the perfect companion to the Koko lounge chair, acting as a comfortable footrest, enhancing its refined silhouette and offering an additional layer of comfort and versatility for contemporary living spaces.

Koko embodies the essence of luxury Italian furniture design, blending elegance, craftsmanship, and comfort in a harmonious composition that celebrates fine materials and meticulous attention to detail.

Made in Italy.
